#### **Dance technique classes**

While we provide some dance technique training in the Music Theatre program, the main focus is on providing opportunities for students to learn music theatre choreography and repertoire and combine this with their singing and acting skills. For this reason, students from Year 4 are expected to take a separate technique class within the week (for Prep to Year 3 we highly recommend a separate technique class in jazz and tap).

We have included the Development technique classes in Jazz and Tap for Juniors and Inter/Senior in this timetable for those that are doing this as a stand-alone program. Those doing syllabus or Elite programs only need to attend the relevant Music Theatre class.
